### About Me

As a motivated and ambitious fresher, I am eager to embark on a career in web development. My educational background, coupled with my passion for technology, has equipped me with a strong foundation in programming and problem-solving skills. I am enthusiastic about contributing to dynamic web development projects and eager to learn and grow in a collaborative and innovative environment.

### Projects Made

#### LIBRARY MANAGEMENT SYSTEM

*Developed a fully functional Library Management System using PHP, HTML, and CSS. This system allowed for efficient cataloging of books, user management, and borrowing/returning books.*

Technologies Used: PHP, HTML, CSS

#### SIMPLE DIETITIAN CHAT BOT

*Designed and implemented a Simple Dietitian Chat Bot using Python, leveraging the NLTK library spaCy and the Kivy framework. This chat bot provides personalized dietary recommendations based on user input and dietary preferences.*

Technologies Used: Python, spaCy, Kivy framework
